## About Us

Nakoda group is promoted by professionals having vast experience of over three decades in Mining, Drilling Excavation Industry. We are continuously expanding our production capacity along with product basket and launched many more solutions for our customer i.e. crusher, screen and various types of portable Screw Air Compressor with technical collaboration of world class leaders.

## Our Aims

To provide worldclass product with good R & D and establish a dream of "MAKE IN INDIA - MAKE FOR WORLD"

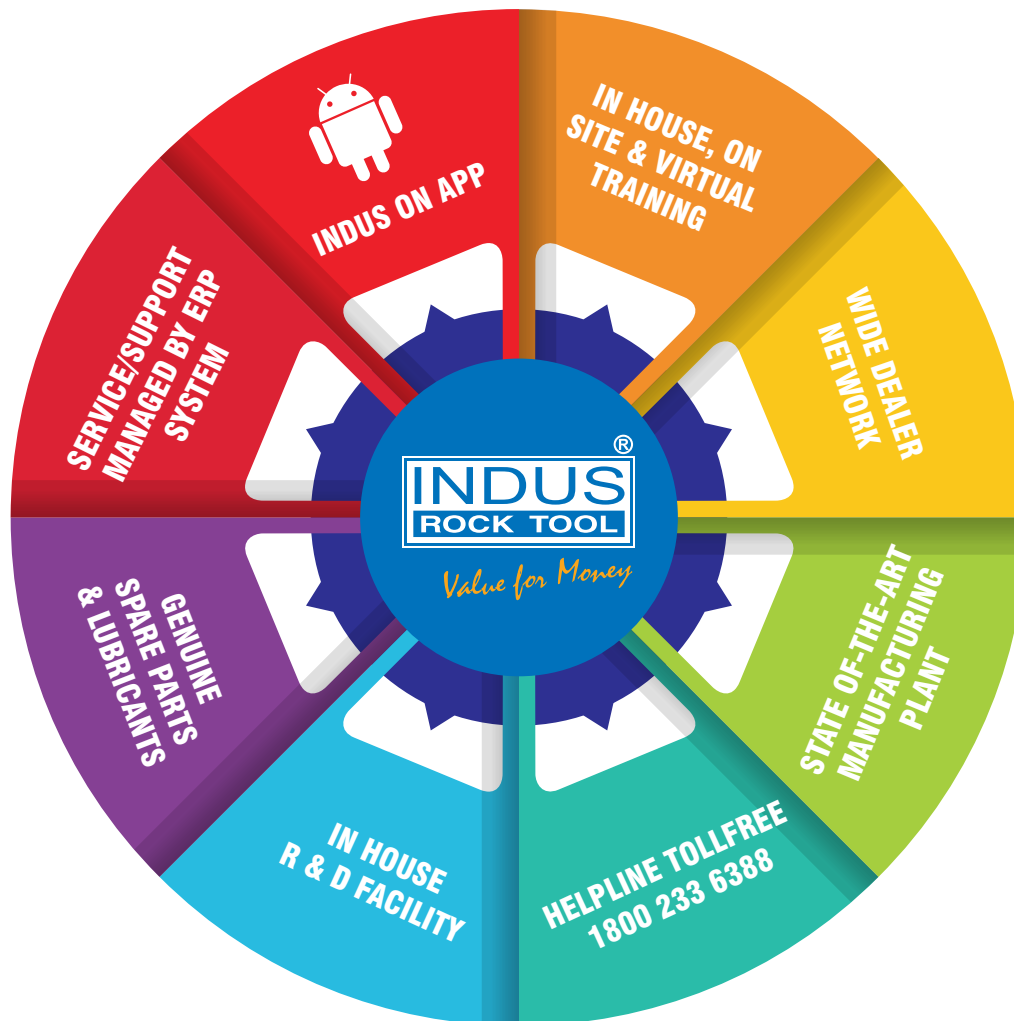

### Certification

### Active Member

# Sales And Support

## Sales

Pan India Presence with own Branches, Dealers, Sales Executives and Engineers network to provide best sales support.

## Service

100+ Service Engineers working across the country to support with Toll Free Helpline and INDUS app.

## Spares

Pan India best Spare Parts support via Dealers, Channel Partners, own parts depot supported by 25000 sq.ft. central parts warehouse with huge parts inventory at Ahmednagar.

## Training

Dedicated Team for time bound training on technical, Soft Skill, Developing Leaders for future, 360 degree feedback, Team building, Quality and outbound training etc.

## Pneumatic Crawler Drill

## THE ULTIMATE HP DRILLING SOLUTION

INDUS IRB 115 is most popular and widely accepted across the country as well Export market. This drill comes in three different segment Down The Hole, Top Hammer and HSD - high speed drill using 7/8" shank drill rods.

IRB 200 is a most powerful pneumatic drill in its segments. Beauty of this drill is using planetary type traction gear box which give very high torque to work in any tough gradient. This drill comes in three different variant Down The Hole and high speed Top Hammer version which comes with independent rotation and a new latest version toe drill for granite and marble quarry application. Drill is most rugged and extra heavy duty which is a perfect choice for any hilly working conditions.

# Hydraulic Crawler Drill

## THE ULTIMATE HP DRILLING SOLUTION

INDUS is having largest range of Hydraulic Crawler Drill in 4.1/2" class drilling. IRB 220 is a powerful hydraulic self-propelled drill having onboard engine and comes in different version suitable to job site requirements.

IRB 300 is high performance basic cabin drill with onboard compressor and IRB 400 is a high performance, high features and fully automatic drill having onboard high pressure compressor. For more technical details write to us.

# Hydraulic Crawler Drill

## THE ULTIMATE HP DRILLING SOLUTION

INDUS is having wide range of Hydraulic Crawler Drill in 6" class drilling. Offering different models with onboard compressor and fully automatic, having lot of advance features.

HRB 125 LM is a coal over burden drilling machines with 6 meters single pass drilling solution. HRB 150 comes in two different variant platform type and boom type with lot many advance features like high pressure on board compressor, air condition cabin, auto rod handler, auto lube, auto fire and digital health monitoring system etc.

# Tool and Accessories

We offer a wide range of drilling tools and accessories like DTH Hammers, Button Bits, Large Diameter Button Bits, Bench Drilling Tools on Crawler Drilling machine widely used in Tunneling, underground mining, bench drilling, quarry and construction sites. Key products are Extension Rods and Button Bits in R28, T32, T38, T45, T51, T65 range. Various others tools like Threaded Tube Drilling Tools, Tapper Rod Drilling Tools, Reaming Tools and Blast Hole Fairness Tapping Tools. We supply all kind of Rock Drills, Breakers and many more.
